

Step 1: Create an IBM Cloud Account

A screenshot of a mobile phone screen showing the IBM Cloud registration process. The browser address bar shows 'cloud.ibm.com/register'. The page title is 'Create an IBM Cloud account'. Below the title, there's a link 'Already have an IBM Cloud account? Log in'. The main content area is titled 'Account information' and shows a form with 'Email' (verajithathur@gmail.com) and 'Password' (a masked password). A tooltip is visible over the password field, listing requirements: 8-63 characters, one uppercase character, one lowercase character, one number, no spaces at the beginning or end or multi-byte characters, and 'Sufficiently Strong'. It also suggests increasing strength by using longer words, combinations of words, phrases or harder to guess patterns. On the right side, there's a section 'Get started with a USD 200 credit' and 'Build your journey to public cloud'.

Step 2: Verify the Email

3:34 PM | 0.1KB/s

cloud.ibm.com/register
